Inclusive Access

Inclusive Access is a digital program offered to students to reduce the price of their course materials. Access to the digital material is available in Canvas on the first day of class, and the cost is charged to student accounts ahead of each term. Though faculty elect to place their courses into the IA program, students have the ability to opt out, receive a refund, and purchase their course materials from another source.

How does it work?

Faculty choose Inclusive Access for their course at a reduced cost for students.

Students will be automatically charged via their MyUTK account.

Students receive access to digital course materials on the first day of class through Canvas.
